

Mobile Security for Business

Sales Presentation

Protecting the irreplaceable | [f-secure.com](https://www.f-secure.com)

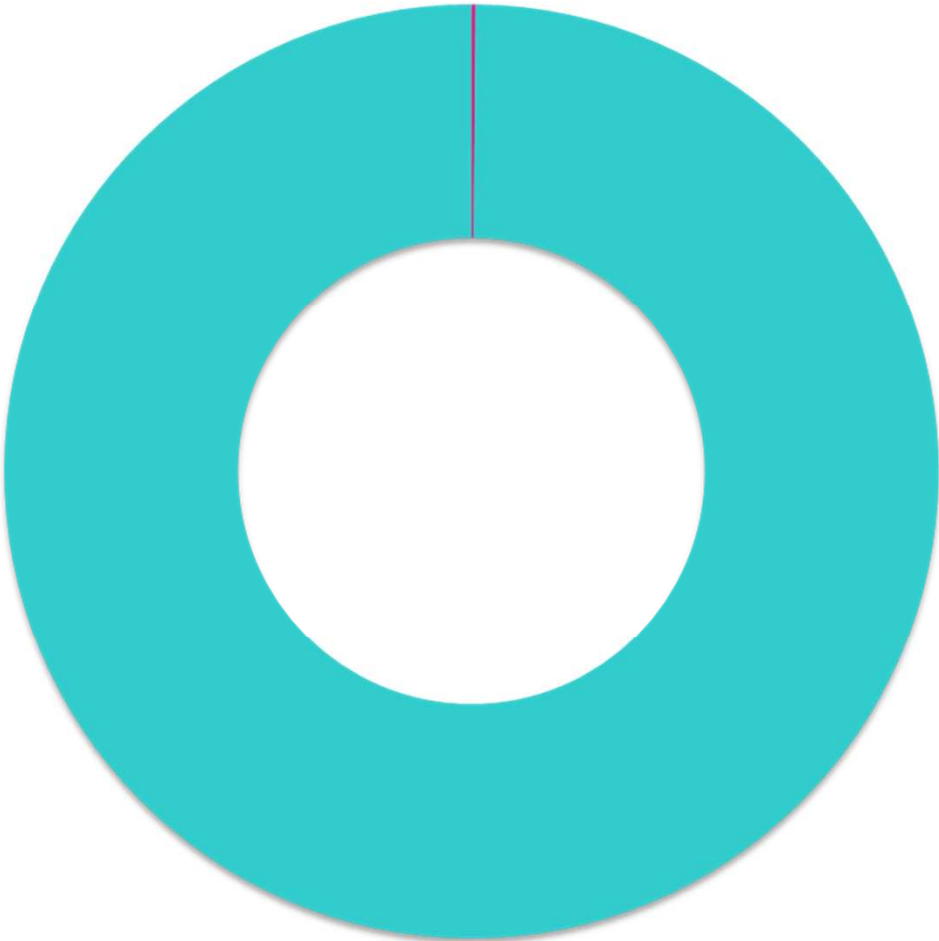

Smartphones today

Your information is more valuable than the device

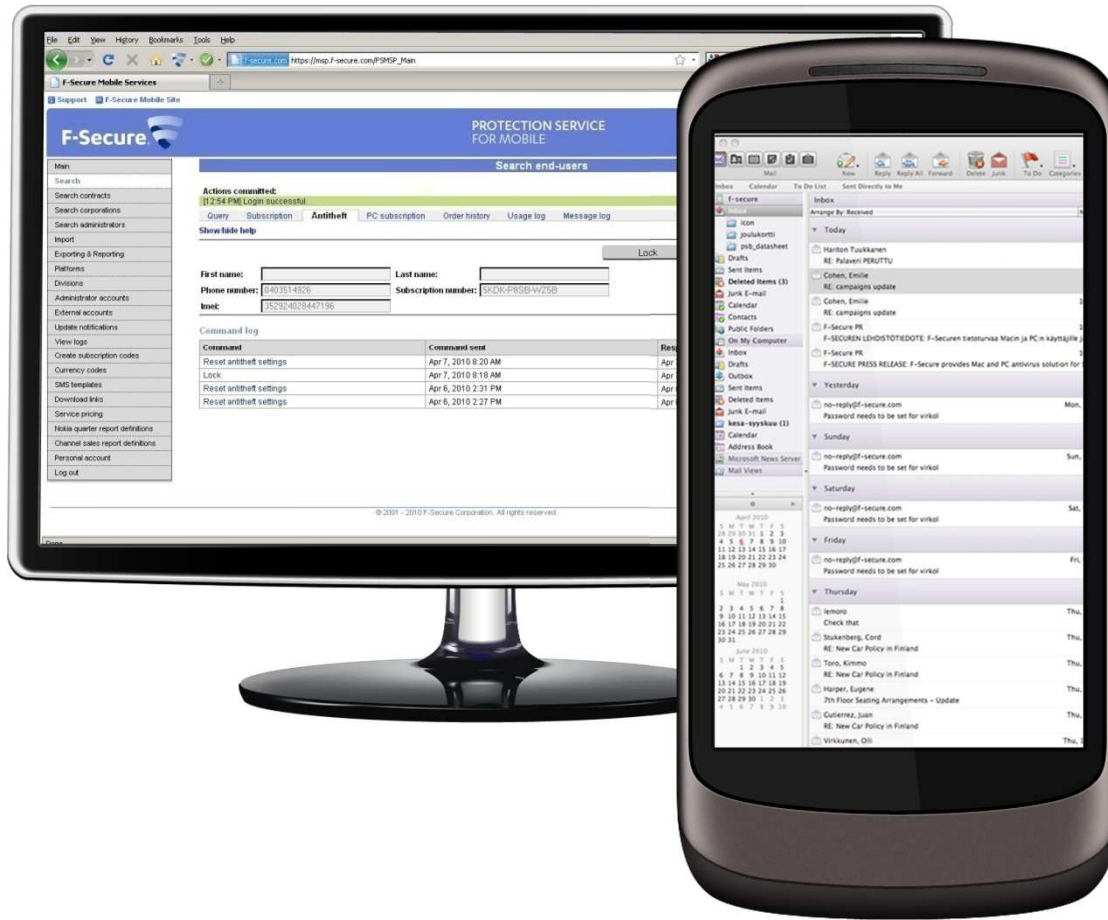

Where is the threat?

The real **threat** is not the viruses. It's the **user**.

- Mobile malware count
- Phones lost or stolen in 2008

Complete Mobile Security, Managed

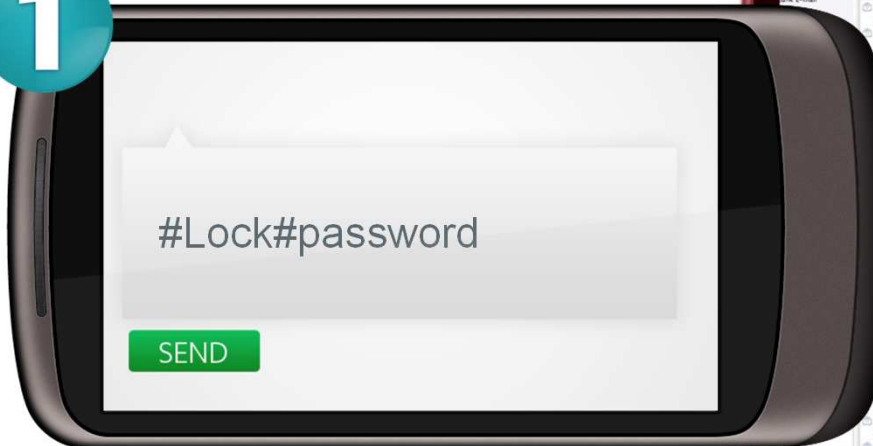

Anytime,
Anywhere,
From any device.

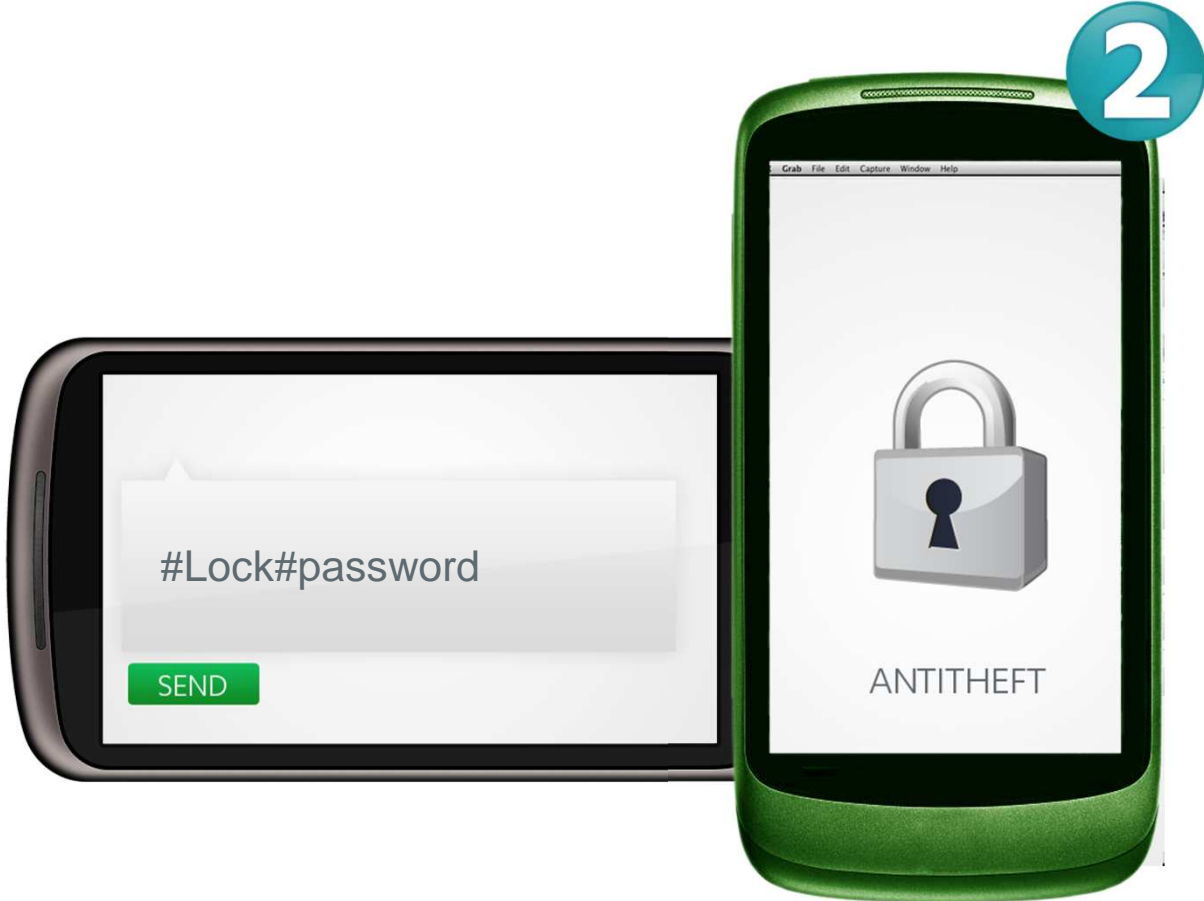

Safeguard your confidential data

Send **lock**
SMS.
